

INTERNATIONAL POLAR WEEK MARCH 2022

HOW TO CREATE A BEAUTIFUL MESSY SNOWFLAKE USING TABLE SALT

1. Prepare a colorful piece of construction paper. Draw a snowflake pattern, the way you want it to look like.

2. Then using liquid glue draw the snowflake again following your pattern lines. You want the line to be rather thick (thicker than we did). This way salt will hold on better to the piece of paper.

3. Take a bowl of table salt and sprinkle it over your glue lines, pressing down with your finger, so the salt glues better.

4. Let it dry for 10 minutes then shake off the excess of salt.

5. Wet your paint brush and then apply water colors of your choice to the snowflake by gently touching the salt, the color will run through the salt.

6. Let it dry or ...do some finishing touches....(but I, really recommend to dry it first)

And tada..... your beautiful messy snowflake.
