

INTERNATIONAL POLAR WEEK MARCH 2022

HOW TO CREATE A POLAR BEAR OUT OF TOILET PAPER ROLL

1. You will need colorful paper (white and black for the eyes and ears), glue stick, a piece of cotton pad, scissors, toilet paper roll, paint brush and water colors or acrylic.

2. Paint your toilet paper roll white. Let the paint dry.

3. Cut the eyes, ears, beak and feet out of colored paper. From the cotton pad cut a half shaped oval for the belly, a medium circle for the muzzle and a small circle for the nose.

4. Then glue a pair of eyes and ears onto the polar bear.

5. Next glue the oval cotton pad as the polar bears belly, medium circle as his muzzle and small circle as his nose. Using a paint brush paint his nose black.

6. Your amazing polar animal is ready!
