

APECS September 2009 Newsletter

I feel September is always a month filled with possibilities and excitement for the future. This issue of the APECS newsletter has a great number of opportunities for early career polar researchers - meetings, workshops, jobs, and opportunities to share our science and our experiences. Please take a few moments to look for possibilities for yourself!

- Benjamin Beall, APECS Vice-President

In this month's newsletter ...

1.) APECS News and Updates

- UKPN Arctic Marine Sciences Workshop
- APECS discussion panel at the Antarctic Treaty Summit
- Participate in IPY Polar Week
- Call for researcher applicants: Host a PolarTREC teacher

2.) Message from the Director –

3.) Important news from APECS partners

- Online Magazine Available: US National Science Foundation
- New Digital Elevation Model available – 30m ASTER GDEM
- SCAR Newsletter: Issue 19, June 2009 now available
- Arctic Climate Change and Security Policy Conference report available
- CliC Ice and Climate Newsletter published
- New Book: *Northern Exposure: Peoples, Powers, and Prospects for Canada's North*
- Sea Ice Outlook Report
- Alaska Ocean Observing System Updated Website: Sound Predictions 2009 and Field Team Blog

4.) Meetings, Workshops and Conferences

- Cryospheric Science Workshop
- Arctic in Rapid Transition. Initiation Workshop International Conference on Arctic Research Planning II
- IPY International Early Career Researcher Symposium
- Impact of Environment on Human Health: Interdisciplinary Science and Education
- Managing Resources for a Changing Arctic
- Northern Governance Policy Research Conference
- New website and call for community input – 2010 State of the Arctic Conference
- Arctic Science Summit Week 2010
- 17th Inuit Studies Conference

5.) Jobs/Opportunities

APECS News and Updates

UKPN Arctic Marine Sciences Workshop

The UK Polar Network (UKPN), British branch of the Association of Polar Early Career Scientists (APECS) organizes a series of workshops for early career scientists. The 2nd workshop will take place in Plymouth, UK, 12-13 October 2009. It will focus on Arctic Marine Sciences and is aimed at young researchers at various career stages (from undergraduate to early faculty) who are going to be mentored by experienced researchers in the field.

Registration for the workshop is free and includes lunch refreshments, a networking cruise to Plymouth Sound and a reception at Plymouth Marine Laboratory. Early career scientists from all countries are

eligible to apply. Limited travel funds are also available. To register and express your interest in the workshop, please fill out the webform by 15 September 2009.

For more info, please go to:

http://apecs.arcticportal.org/index.php?option=com_content&view=article&id=452:ukpn-arctic-marine-sciences-workshop&catid=22:highlights&Itemid=70.

APECS panel discussion at Antarctic Treaty Summit in Washington, DC

APECS has been asked to organize a science-policy panel discussion for the Antarctic Treaty Summit from 30 November to 3 December in Washington, DC.

The panel discussion is scheduled as a luncheon for 3 December and will focus on the communication of science to policy makers. Anyone interested in science-policy interactions or curious about making a difference through the way they communicate their research is welcome to attend.

More information about the AT Summit can be found on the APECS website:

http://www.apecs.is/index.php?option=com_eventlist&view=details&id=25:antarctic-treaty-summit&Itemid=83APECS

Participate in IPY Polar Week: 4-9 October

As you know, we have been celebrating IPY Polar Days since March 1st, 2007. As the IPY research program moves toward analysis and results and as IPY participants plan for a large international conference in Oslo in June 2010, the IPY International Programme Office plans two Polar Weeks, in October 2009 and March 2010, with the theme: 'What Happens at the Poles Affects Us All'.

Efforts for Polar Week will need to be well coordinated and it is our goal to have all activities well in hand by September 21st, at the latest, so please contact Karen Edwards (karen.edwards@ualberta.ca) directly at your earliest convenience if you are interested in contributing to October Polar Week.

For more information:

http://apecs.arcticportal.org/index.php?option=com_content&view=article&id=466:participate-in-ipy-polar-week-4-9-october&catid=22:highlights&Itemid=70

Call for Researcher Applications: Host a PolarTREC Teacher

PolarTREC (Teachers and Researchers Exploring and Collaborating) is currently accepting applications from researchers for the fourth year of teacher research experiences. Researchers are invited to submit an application to host a PolarTREC teacher in the 2010 Arctic and/or the 2010-2011 Antarctic field seasons. More information and application forms are available at: <http://www.polartrec.com>.

Please see the APECS News article for more information:

http://apecs.arcticportal.org/index.php?option=com_content&view=article&id=443:call-for-researcher-applications-host-a-polartrec-teacher&catid=22:highlights&Itemid=70

Message from the Director – Visit your local Norwegian Embassy

For those of you who followed the amazing Students on Ice Arctic 2009 Expedition (www.studentsonice.com/arctic2009) you know that we had an amazing few weeks on board the *Lyubov Orlova*. This was my first 'cruise', so I have a whole new appreciation for you polar marine researchers! There are some great videos on the site that really capture the awesomeness of the Canadian Arctic and the wonderful and warm people living there.

After only being back here in Tromsø for a few days, I had the pleasure of showing 2 US students from American University around campus and shared with them the fun of the Tromsø nightlife. These two students had won an essay contest sponsored by the Norwegian Embassy in Washington D.C. You can read about their Norwegian Arctic Adventure at <http://www.norway.org/policy/news/Students+from+American+University+explore+Arctic+Norway.htm>.

This gives me the perfect opportunity to tell you about the great Norwegian Embassies around the world. Embassies are the perfect place to find information when you are thinking about moving to a new country, and when looking for travel funding to develop new international research partnerships. The Norwegians have a plethora of great insights and helpful suggestions to make visiting Norway, and moving here a lot easier. If you are planning to attend the Oslo IPY Science Conference in June 2010, this site will also be helpful to find out about visa information. Check out your local Norwegian Embassy:
<http://www.norway.info/>.

Important news from APECS partners

Online Magazine Available: US National Science Foundation

Science Nation, the National Science Foundation's online magazine examines the breakthroughs and possibilities for new discoveries about planet Earth, the universe, and the people of our planet. Each week, Science Nation takes a dynamic look at the research - and the researchers - that change our lives. The site includes written articles as well as videos available for download. For further information, please go to:

Scientific Committee on Antarctic Research

The Scientific Committee on Antarctic Research (SCAR) announces the availability of Issue 19 of the SCAR Newsletter. The newsletter is available at: <http://www.scar.org/news/newsletters/issues2009/jun09.html>

Conference Report Now Available: Arctic Climate Change and Security Policy Conference

Dickey Center for International Understanding, Carnegie Endowment, and the University of the Arctic
The Dickey Center for International Understanding, the Carnegie Endowment, and the University of the Arctic announce the availability of a conference report: Arctic Climate Change and Security Policy Conference. The conference was held 1-3 December 2008 at Dartmouth College in Hanover, New Hampshire.

To download the report, please click on the "Joint Report Calls for Environmental Security in the Arctic" link at:

http://dickey.dartmouth.edu/component/option,com_frontpage/Itemid,1/

Newsletter Now Available: CliC Ice and Climate News

Climate and Cryosphere Project

The World Climate Research Programme (WCRP), the Scientific Committee on Antarctic Research (SCAR), and the International Arctic Science Committee (IASC) announce the availability of the Climate and Cryosphere Project (CliC) Ice and Climate Newsletter. To view the newsletter please go to:

<http://tinyurl.com/msm6fc>

New Book Available: Northern Exposure: Peoples, Powers, and Prospects for Canada's North The Art of the State, Volume IV

The Institute for Research on Public Policy (IRPP) has released the fourth volume in the series The Art of the State. "Northern Exposure: Peoples, Powers, and Prospects in Canada's North" is a multidisciplinary edited volume that explores how the dramatic changes in the north will affect the social, economic, and political future of northerners. For further information, please click on the link to "Northern Exposure: Peoples, Powers, and Prospects for Canada's North" at: <http://www.irpp.org/fasttrak/index.htm>

Sea Ice Outlook Report Available

September 2009 Sea Ice Outlook: July Report Study of Environmental Arctic Change (SEARCH)

Meetings, Workshops, and Conferences

For all meetings related to polar research, visit: <http://www.apecs.is/meetings>

UPCOMING EVENTS

If you know of a conference coming up and would like to organize an APECS meeting, we are happy to help you, just let us know (apecsinfo@gmail.com). Organizing a meeting is a great way to gain experience, and meet senior researchers that can help you in the next steps of your career.

Cryospheric Science Workshop

UK Polar Network, Sheffield, UK, 4-6 November 2009

The UK Polar Network (UKPN) announces the Cryospheric Science Workshop, to be held 4-6 November 2009, at the University of Sheffield, in Sheffield, UK. This third workshop in the UKPN Career Skills Workshop series is aimed at early career scientists and researchers. It will provide an opportunity for peer-to-peer networking and include a poster session and a workshop dinner. The event is free for all members of the UKPN. You do not need to be based in the UK to join the UKPN or to participate in the workshop.

For further information, please search for the conference at:

<http://www.polarnetwork.org/new/>

This event is co-sponsored by APECS

Arctic in Rapid Transition. Initiation Workshop International Conference on Arctic Research Planning II

International Arctic Research Center Fairbanks, Alaska, 7-9 November 2009

The International Conference on Arctic Research Planning (ICARP) II Marine Roundtable and the International Arctic Research Center (IARC) are organizing a workshop to start the Arctic In Rapid Transition (ART) Initiative. The ART Initiation Workshop will be held at IARC, located at the University of Alaska Fairbanks, 7-9 November 2009.

Application deadline: Sunday, 20 September 2009

For further information, please go to: <http://www.aosb.org/art.html>

This event is co-sponsored by APECS

IPY International Early Career Researcher Symposium

Victoria, British Columbia, Canada, 4-8 December 2009

IPY Canada, The Association of Polar Early Career Scientists (APECS), ArcticNet, and the Northern Research Forum (NRF) announce that registration is now open for the IPY International Early Career Researcher Symposium. The Symposium will be held 4-8 December 2009 in Victoria, British Columbia, Canada. It is being organized in conjunction with the 2009 ArcticNet Science Meeting, which will be held 8-

11 December 2009. If you registered via the online system, we apologize, but for technical reasons we ask you to apply via the application currently on the website and send it to apecsinfo@gmail.com.

For further information, please go to: <http://www.apecs.is/victoria09>

Impact of Environment on Human Health: Interdisciplinary Science and Education

2009 Arctic Science Conference, 14-16 September 2009, Juneau, Alaska

The 2009 Arctic Science Conference, "Impact of Environment on Human Health: Interdisciplinary Science and Education," will be held 14-16 September 2009, in Juneau, Alaska. This meeting is the annual meeting of the American Association for the Advancement of Science (AAAS) Arctic Division. The abstract submission deadline for the conference has been extended to Friday, 7 August 2009. The deadline for the hotel registration discount has been extended to Tuesday, 1 September 2009.

To register, please go to:

<https://www.signup4.net/Public/ap.aspx?EID=ARCT11E>

For further information about the conference, including hotel reservation details, please go to:

<http://www.arcticaaas.org/>

Managing Resources for a Changing Arctic

19-21 October 2009, Hotel Captain Cook, Anchorage, Alaska

The International Arctic Fisheries Symposium is designed to initiate international discussions for conserving and managing future fisheries in the Arctic Ocean, including managing migratory, transboundary and straddling fish stocks. The symposium will identify current management regimes in the Arctic region and how relevant scientific and fisheries data can be used to inform future management decisions.

The symposium will identify gaps in existing management regimes and potential steps to address those gaps, as well as the need for improved scientific programs to support conservation and management of future Arctic fisheries.

<http://www.nprb.org/iafs2009>

Northern Governance Policy Research Conference

Yellowknife, Northwest Territories, Canada, 3-5 November 2009

The Northern Governance Policy Research Conference will be held in Yellowknife at the Explorer Hotel on 3-5 November 2009. This conference will be the first of its kind in the Northwest Territories (NWT). It will bring together an emerging resource of Northern community-based researchers to discuss ways to connect effective research with policy development in Indigenous and community organizations. For further information, please go to:

<http://www.ngprc.arctichealth-nt.ca>

Arctic Frontiers 2010 – Second call for papers

Tromsø, Norway

The scientific conference of Arctic Frontiers 2010 (27-29 January 2010 in Tromsø, Norway) consists of three parallel sessions where social science and health research on economy, self-governance, and well-being in Arctic communities will be the topic for Session II, and Sessions I and III will be on the effects of ongoing climatic changes on sea-ice and marine biodiversity.

- Session I: Ice and climate, including paleo climate
- Session II: Sustainable communities in the High North
- Session III: Marine Biodiversity under change

We kindly invite you to submit abstracts for oral and poster presentations on these topics.
DEADLINE for submission of abstracts: 19 October 2009.
For full details and instructions on submitting an abstract please see the Arctic Frontiers homepage:
www.arctic-frontiers.co

New Website and Call for Community Input 2010 State of the Arctic Conference

16-19 March 2010, Miami, Florida

The organizers of the State of the Arctic Conference announce the launch of the conference website, which features an online community suggestions form.

The State of the Arctic Conference will be held 16-19 March 2010 at the Hyatt Regency Miami in Miami, Florida. The main goal of the conference is to review our understanding of the arctic system in a time of human-induced, rapid environmental change. It will provide an open international forum for discussion of future research directions aimed toward a better understanding of the arctic system and its trajectory.

To visit the website and the community suggestion form, please go to:

<http://soa.arcus.org/>

Conference Announcement: Arctic Science Summit Week 2010

Nuuk, Greenland, 15-19 April 2010

The International Arctic Science Committee (IASC), the Arctic Ocean Sciences Board (AOSB), the European Polar Board (EPB), the Pacific Arctic Group (PAG) and the Forum of Arctic Research Operators (FARO) announce Arctic Science Summit Week (ASSW) 2010. ASSW 2010 will take place in Nuuk, Greenland, 15-19 April 2010. International arctic science and research support organizations will hold their business meetings, exchange expertise, and explore new opportunities of cooperation.

For further information, please go to: <http://www.assw2010.org>

17th Inuit Studies Conference

Val d'Or, Quebec, Canada, October 2010

The University of Quebec in Abitibi-Temiscamingue (UQAT) is pleased to invite you to the 17th Inuit Studies Conference, to be held at the First Peoples Pavilion on the UQAT Val d'Or campus in Quebec, Canada, during the last week of October 2010 (exact dates to be announced soon). The conference theme will be centered on The Inuit and Aboriginal World.

For further information, please go to: <http://www.uqat.ca/isc-cei-2010>

Jobs/Opportunities

Many other job opportunities listed at the website:

<http://apecs.arcticportal.org/index.php/jobs.html>

European Centre for Arctic Environmental Research Svalbard, Norway

The European Centre for Arctic Environmental Research (ARCFAC), in Ny-Alesund, Svalbard, Norway invites applications for research proposals within all fields of Arctic environmental research, specifically within the following disciplines:

- Geodesy and space geodesy
- Climate research in the troposphere and stratosphere
- Surface phenomena, snow and ice
- Air quality research and arctic pollution
- Marine and terrestrial biology
- Multidisciplinary environmental sciences

Please note that this is the last Call for Proposals within this program. Therefore, all of the fieldwork in Ny-Alesund has to be fulfilled in 2010 and not beyond.

Submission Deadline: 30 September 2009

For further information, please go to: <http://arcfac.npolar.no> or contact the ARCFAC Secretariat at: arcfac@npolar.no

Research Fellowships Available

University of Tromsø, Department of Physics and Technology

The University of Tromsø has 3-5 research fellow positions in earth observation/remote sensing available, for applicants who would like to complete a PhD. The positions are organized under the Department of Physics and Technology, and the research fellows will be enrolled in the Barents Remote Sensing School (BARESS).

The desired research area is earth observation/remote sensing, specifically using synthetic aperture radar (SAR) and polarimetric SAR (PolSAR) data, to address research problems such as:

- Change detection;
- Marine target detection (e.g., ships, icebergs, oil spill);
- Sea surface dynamics studies (e.g., wind, waves, currents);
- Land cover classification (e.g., vegetation, forest, sea ice, glaciers);
- Physical and/or statistical modeling; and
- Methodology for data analysis and multi-sensor data fusion.

Application Deadline: Monday, 7 September 2009

For more information please go to:

<https://secure.jobbnorge.no/job.aspx?jobid=60343>

Postdoctoral Position Available - Arctic Climatology

Planetary Boundary Layer Feedback in the Earth's Climate System G.C. Rieber Climate Institute, Bergen, Norway

The G.C. Rieber Climate Institute at the Nansen Environmental and Remote Sensing Centre, in Bergen, Norway announces a postdoctoral position opening for an arctic climatology scientist. The position is part of the Planetary Boundary Layer Feedback in the Earth's Climate System (PBL-feedback) project. The main objective of the project is to understand and quantify the role of the vertical turbulent mixing in the Earth's Climate System.

Application Deadline: Tuesday, 15 September 2009

For further information, please contact: Igor Esau (igor.ezau@nersc.no)

Graduate Student Opportunity Available Biogeochemical Modeling / Regional Climate Downscaling

Lehigh University Bethlehem, Pennsylvania

The Earth and Environmental Sciences Department at Lehigh University has an opening for a graduate student (MS or PhD) as part of a new NSF-funded project aimed at a better understanding of the climate, vegetation, and ecosystem functioning during the early Holocene in Alaska. This position will involve downscaling GCM output to a regional scale and running experiments with a biogeochemical model of terrestrial carbon, nitrogen, and water cycling.

This position is open until filled.

For further information, please contact: Benjamin Felzer (bsf208@lehigh.edu)

Postdoctoral Research Position Available Land-Surface Hydrological Modeling

University of Saskatchewan Saskatoon, Saskatchewan, Canada

The University of Saskatchewan in Saskatoon, Canada seeks a Postdoctoral Research Associate to work in coupled land-surface hydrological modeling with the Improved Processes and Parameterization for Prediction in Cold Regions (IP3) network.

This position is open until filled.

For further information, please contact: Julie Friddell (ip3.network@usask.ca)

PhD Student Research Assistantship Available

Geophysical Institute and the Institute of Arctic Biology University of Alaska Fairbanks Fairbanks, Alaska

The Geophysical Institute (GI) and the Institute of Arctic Biology (IAB) at the University of Alaska Fairbanks (UAF) seek applicants for a PhD Research Assistantship. The successful applicant will develop a dissertation with two main components: documenting and predicting ecosystem shifts in response to climate change, and developing a long-term monitoring station (Fairbanks Community Climate Observatory) at Creamer's Refuge.

This position is open until filled.

For more information please contact: Abby Powell (ffanp@uaf.edu) or Anupma Prakash (prakash@gi.alaska.edu)

Principal Investigator Position Available

Bigelow Laboratory for Ocean Sciences West Boothbay Harbor, Maine

Bigelow Laboratory for Ocean Sciences invites applications for a Principal Investigator (PI) in any of the three following areas:

Ocean observing (e.g., sensing of optical, acoustical, chemical, biogeochemical or molecular properties from a variety of platforms such as satellites, buoys, or autonomous vehicles);

Ocean acidification (e.g., carbon/carbonate chemistry, algal, microbial or molecular impacts); and
Biogeochemical/ecosystem modeling (e.g., coupled biogeochemistry/GCM models, ecosystem/mass balance models, or trophodynamic models).

Review of Applications Will Begin: Tuesday, 15 September 2009

For more information please go to: <http://www.bigelow.org/position-openings/job-posting.php?ID=769>

Postdoctoral Fellowship Available - Greenland Ecosystem Ecologist

Environment and Natural Resources Institute University of Alaska Anchorage Anchorage, Alaska

The Environment and Natural Resources Institute at the University of Alaska Anchorage (UAA) seeks an ecosystem ecologist for a postdoctoral position on a new National Science Foundation (NSF) project with field studies in Northwest Greenland.

Application Review Begins: 1 November 2009

For more information, please do an 'Advanced Job Search' for posting number 0056785 at:

<https://www.uakjobs.com>

Postdoctoral and PhD Student Positions Available - Analysis of Arctic Ocean Circulation

Data

Alfred Wegener Institute for Polar- and Marine Research Bremerhaven, Germany

Review of Applications will begin: Thursday, 20 August 2009 The positions will remain open until filled.

For more information, search for '82/kli' at: www.awi.de

Postdoctoral Position Available - Ice-Covered Ocean Response to Atmospheric Storms

School of Fisheries and Ocean Sciences University of Alaska Fairbanks Fairbanks, Alaska

The School of Fisheries and Ocean Sciences (SFOS) at the University of Alaska Fairbanks (UAF) in Fairbanks, Alaska, has extended the deadline for applications for a postdoctoral research assistant to work with the Ice-Covered Ocean Response to Atmospheric Storms (ICORTAS) project.

The extended deadline is Tuesday, 15 September 2009.

For more information please go to: <http://www.sfos.uaf.edu/employment/>

Museum Position Available - Education Outreach Specialist

UA Museum of the North, Fairbanks, Alaska

The UA Museum of the North (UAMN) in Fairbanks, Alaska is recruiting an Education Outreach Specialist to collect and record Alaska Native oral histories about the night sky. These recorded stories will be incorporated into the portable planetarium presentations.

Application Deadline: Tuesday, 15 September 2009

For further information, please search for posting number 0058266 at: <http://www.uakjobs.com>

Molecular Phylogeneticist

British Antarctic Survey, Cambridge, UK

This role requires contribution to understanding of the biodiversity and biological evolution of Antarctica and the Southern Ocean by carrying out phylogenetic and population genetic analysis within the Evolutionary History of the Polar Regions workpackage. Also, to carry out molecular laboratory work including extraction, amplification and sequencing of DNA. In addition, the candidate will need to carry out a full range of cladistic analytical techniques and interpretation. The job will provide important phylogenetic input a multidisciplinary study of the controls of evolutionary processes in the polar regions.

Application Deadline: Sunday, 6 September 2009

For more information, please go to:

<http://www.antarctica.ac.uk/employment/vacancies/job.php?JobID=460>

Funding Opportunity: Aboriginal Research Pilot Program

The Social Sciences and Humanities Research Council of Canada (SSHRC) is relaunching its Aboriginal Research Pilot Program and invites eligible researchers to apply before the upcoming deadline on 30 September 2009.

The Aboriginal Research Pilot Program

The program facilitates research by and with aboriginal scholars and aboriginal communities on issues and topics relevant to Canada's Aboriginal Peoples, such as, but not limited to, urban issues, economic development, the environment, education, research ethics, intellectual and cultural property, traditional aboriginal knowledge, aboriginal knowledge systems, languages and cultures, and international aboriginal communities.

The program also aims to build the humanities and social sciences community's capacity to operate within, and benefit from, traditional aboriginal and other knowledge approaches to these sorts of issues and topics.

Aboriginal Research Pilot Program Grants

Research Development Grants are worth up to \$25,000 over a maximum of two years; Research Grants are worth up to \$100,000 annually, for a maximum of \$250,000 over three years.

Eligibility

Aboriginal research funded through this program builds on traditions of thought and experience developed among, and in partnership with, First Nation, Inuit and Métis peoples in Canada, as well as indigenous peoples in other parts of the world. The program is open to applicants affiliated with a Canadian postsecondary institution, or a not-for-profit aboriginal or community organization holding institutional eligibility. For more information on institutional eligibility, please see the program description (below). All applications must include both university- or college-based scholars and participants from aboriginal communities.

Each member of the research team must meet SSHRC's requirements for his or her particular role, whether as applicant (principal investigator), co-applicant (co-investigator), collaborator, student assistant, or other assistant or support staff.

More information

For more information on the Aboriginal Research Pilot Program, or to apply, visit: www.sshrc-crsh.gc.ca/site/apply-demande/program_descriptions-descriptions_de_programmes/aboriginal-autochtone-eng.aspx.

For more information on projects previously funded through the program, visit SSHRC's awards search engine at: www.outil.ost.uqam.ca/CRSH
